The prior art does not teach or suggest the apparatus of independent claim 1 or the method of independent claim 20 where vision is improved by correcting for higher order aberrations utilizing a patient's retina where a laser beam is used as a light source and (along with the other components or steps) the laser beam is directed to an adjustable lens.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
